## Principles of recruiting students and PhD students for scholarships under the Erasmus+ programme in the academic year 2025/26

### 1. Applicants

- Persons registered at the first or second study cycles, or at uniform Master's studies, and doctoral candidates, or doctoral school participants can apply for an Erasmus grant.
- Applicants seeking to participate in the programme have to be enrolled officially for at least the first year of studies.
- During the first year of Master's studies, a mobility is possible only when the applicant was a student at the University of Wrocław in the preceding year, i.e., they were pursuing Bachelor's/Master's studies at the University of Wrocław. The same criterion applies to the first year of doctoral studies (The above applies only to the situation of additional recruitment in September / October 2025 for Erasmus studies in the next summer semester 2025/2026).
- Third-year students at the first cycle studies may participate in the recruitment, provided that they submit adequate evidence of admission to the second study cycle at the University of Wrocław.
- An applicant has the right to enter the recruitment process during a leave of absence, however, having an active student status is the prerequisite for their mobility to take place.
- The basic eligibility criteria for students are as follows: appropriate Grade Point Average, command of a relevant foreign language, and motivation for the trip.
- The minimal average grade for the period of entire study period is 3.0.
- The condition for departure is the settlement of the previous academic year with one possible conditional promotion.
- The basic eligibility criteria for students are as follows: appropriate Grade Point Average, command of a relevant foreign language, and motivation for the mobility.

### 2. Mobility Capital

Every person has the opportunity for a mobility under the Erasmus+ Programme, lasting up to 12 months in total for each cycle of study, and 24 months for uniform Master's studies. The number of days/months spent abroad under the Erasmus+ Programme is called the mobility capital. The capital is calculated separately for each cycle of study, all types of mobility are summed up, including those with zero financing.

### 3. Recruitment Documents

An Applicant's mobility portfolio should include:

1. CV (tabular)
2. Certificate from the Dean's Office regarding Grade Point Average for the period in the course of studies (at a given level of study).
3. Declaration regarding any previous mobility (mobility capital) – the template is attached.
4. Letter of motivation justifying the mobility applied for. While recruiting for Erasmus+ Studies, an Applicant should indicate up to 5 universities in the ranking order, and should specify the semester of departure.
5. A photocopy of a language certificate (this applies to Applicants who were not interviewed by SPNJO).
6. **For Erasmus+ Studies mobility** – a written consent of the thesis supervisor when the mobility in question is performed during the last year of studies in the given cycle.

If the supervisor has not been assigned at the time of recruitment, the missing document must be delivered to the Coordinator and the Dean's Office at the beginning of the mobility semester.

**Doctoral STUDENTS** – In the case of mobility of doctoral students, the approval of the supervisor / the Head of the Doctoral School is necessary. It is recommended to inform the Doctoral School about the planned mobility. A written consent from the supervisor / possibly the Head of the Doctoral School should be delivered to the Coordinator and to the Dean's Office.

7. **For a Traineeship or short-term mobility** – confirmation of admission to the given mobility with a so-called *Acceptance letter* issued by the receiving institution.
8. All documents should be prepared **in English**.
9. The candidate's documentation file should be delivered to the Coordinator by e-mail.

#### 4. Committee

- Decisions on qualifying candidates are made by the Committee whose composition is decided by the Dean.
- The Recruitment Committee, while allocating an Applicant at a given university, takes into account the Applicant's preferences expressed in their motivation letter; however, the Committee reserves the right to make the final decision, especially when there are not enough places in selected universities (Erasmus+ Studies).
- When an additional round of selection is carried out in the event of grant availability, the Coordinator, upon the Dean's approval, may individually recruit Applicants outside the regular recruitment (Erasmus+ Studies).
- The Coordinator, upon the approval of the Dean, may individually select eligible students for mobilities with continuous recruitment, i.e., throughout the year.
- Appeals against the decision of the Erasmus+ Committee/Coordinator are submitted to the Vice-Rector for projects and international relations.

## Mobility Types, Recruitment

### ERASMUS + STUDIES

#### Semester- or year-long mobility at a partner university (Erasmus+ Studies), applicable to KA131 Programme Countries and KA171 Partner Countries

- The Recruitment is conducted at faculties/institutes and led by Erasmus+ Programme Coordinators acting within the faculty/institute Recruitment Committee.
- The Recruitment is conducted from December 2024 to March 2025. Places for both winter and summer semesters in the academic year 2025-2026 will then be allocated.
- Additional recruitment will be conducted in September-October 2025, only if the University of Wrocław has grants to manage and assign. The recruitment will be conducted for the second semester of 2025-2026.
- An Applicant can go only to a university with which their home faculty/institute has signed a cooperation agreement under the Erasmus+ Programme.
- Students of interdisciplinary studies may apply for recruitment within the fields of study that they are pursuing. These students are subject to the same eligibility criteria as the students of a given department.
- The aim of the mobility is to enable a student to complete a part of their studies at a partner university, which will result in obtaining the agreed number of ECTS credits as specified in the Learning Agreement. It is assumed that the number of ECTS credits for a semester is 30. It is possible to determine a different, usually lower, number of ECTS credits, due to particular qualities of a curriculum. Agreements on the type of selected courses and the number of credit points require the approval of the Erasmus+ Programme Coordinator. The required minimum number of ECTS to be obtained at the partner university is 20 ECTS.

- Doctoral students may attend classes and earn the required number of ECTS credits agreed between the universities or they may devote their stay to so-called own research without attending classes and earning credits. In such a case it is necessary to appoint a tutor at the host university, who will confirm the implementation of the programme.
- **The length of the mobility strictly depends on the schedule of the academic year at the foreign university.** It is possible to obtain financing for the period lasting from 2 months (for trimesters; for doctoral students travelling for research purposes) to 10 months (for annual trips).

### STAGE I – Language Test

Interviews in relevant foreign languages (English, German, French, Spanish, Italian) are conducted in the Department of Practical Foreign Language Teaching (SPNJO); registration and interview dates are published at <http://www.spnjo.uni.wroc.pl/>

### STAGE II – the Recruitment at the Faculty Level

**18 February 2025** – submission of Applicants' portfolios via mail (online).

The student is obliged to send these documents in **ONE mail** with the title: **ERASMUS\_ FIRST NAME\_LAST NAME** to the ISM Erasmus Plus Coordinator
